

## Technology Solutions for Ministries

We offer digital media design solutions engineered specifically for churches including all inclusive web site design and hosting, digital art and media, and video editing and animation. Our partners at Lousworld.com have over 20 years of experience in digital media and understand the unique needs of ministries, whether you're looking at building an online faith community or updating your old logo, we can help.

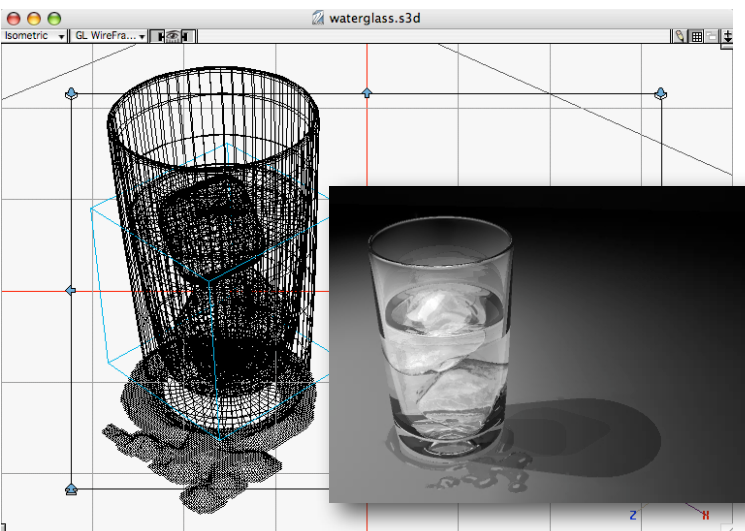

### Web sites starting from just \$35 a month\*

Web sites are important communication and outreach tools but keeping up with them takes time, effort and a steep learning curve. Wouldn't it be great if you could run your entire web site from your email? Now you can. We'll design maintain and update your site for you and keep you in the loop with 24/7 email support. As part of our partnership, a discount rate of \$35 a month is available exclusively through DNA Coaching\*\*. That's a savings of \$60 a year. It's a package designed to grow with your online ministry with plenty of tools to help you connect with the community like blogs, calendars and social networking software. Best of all you get a site custom fit to your ministry's personal needs and a web development team with the experience to keep things running problem free.

#### What You Get

Our package includes:

- Domain Registration
- Site Hosting
- Monthly content Updates
- Customized site design
- Up to 3 new pages per year
- 5 email accounts
- Interactive site software
- 24/7 online support

### Custom Digital Art and Video
